

BRING ON THE HEAVY HITTER! Sometimes you need to call in the big guns. Hauling heavy loads is one of those times. That's when you need an engine that boasts big torque and big horsepower, big enough to tow up to 150,000 lbs.

But with great power comes great responsibility. Our heavy-duty trucks come packed with safety features including air disc brakes, top-of-the-line stability and traction control, and serviceability that makes uptimes a priority.
